

DESIGNED TO HELP OUR DISTINGUISHED Practices Succeed

Are you Professional, Preferred, Advanced, Premium, or Star?

Each **NeuroStar® Precision Pulse Program** level is determined based on your preceding quarter's NeuroStar treatment session purchases. Once you have met the minimum purchase threshold, qualification is automatic for benefits beginning the following quarter. This means your Q1 NeuroStar treatment session purchases will determine your Precision Pulse level and benefits for Q2, and so on. The benefits listed are active only during the quarter you achieve standing in the program. NeuroStar and your Practice Development Manager will provide quarterly updates.
