

# Distinguish Your Practice from Your Peers

**Stellar Distinctions** icons will showcase your experience with NeuroStar® to prospective patients on the NeuroStar Physician Locator. This may help more patients choose your practice when seeking NeuroStar treatment. The more patients you have treated with NeuroStar in the last 12 months, the higher your Stellar Distinctions level.

Stellar Distinctions Level	Minimum NeuroStar Treatment Sessions used in last rolling 12 months
 Diamond Provider	2400
 Platinum Provider	1600
 Gold Provider	1200
 Silver Provider	800
 Bronze Provider	400

**The Stellar Distinction level** is based on each practice location's use of NeuroStar treatment sessions in the last rolling 12 months.

**Stellar Distinction levels** are determined each quarter, and will be automatically updated on the NeuroStar Physician Locator.

**For multi-center practices,** Stellar Distinction icons are based on each individual location's treatment session usage, not the parent account's overall usage.

The NeuroStar Advanced Therapy System is indicated for the treatment of depressive episodes and for decreasing anxiety symptoms for those who may exhibit comorbid anxiety symptoms in adult patients suffering from Major Depressive Disorder (MDD) and who failed to achieve satisfactory improvement from previous antidepressant medication treatment in the current episode.

The NeuroStar Advanced Therapy system is intended to be used as an adjunct for the treatment of adult patients suffering from Obsessive-Compulsive Disorder (OCD).

NeuroStar Advanced Therapy is only available by prescription. A doctor can help decide if NeuroStar Advanced Therapy is right for you. Patients' results may vary.

Visit [neurostar.com](http://neurostar.com) for full safety and prescribing information.
