## TAP INTO A NEW POSSIBILITY for depression

[Visit NeuroStar.com](#)

### Anxious Depression Clearance

As of July 19th, NeuroStar is FDA cleared as a treatment for decreasing anxiety symptoms in adult patients who suffer from major depressive disorder (MDD). Treat patients who suffer from depression and comorbid anxiety with a single clinically supported treatment option familiar to both you and your staff. Reach out to your Practice Development Manager (PDM) to find out the protocols for anxiety symptoms [systemuser.internalemailaddress](#)

### TrakStar Tips of the Day

TrakStar is optimized to send Benefit Investigations (B.I.s) directly to the NeuroStar Reimbursement Support Team for processing! It's time to stop waiting on your fax machine. Rely on TrakStar for your administrative needs and get your patients their insurance benefits faster!

*Over 7,000 Benefit Investigations have already been processed by NeuroStar in 2022*

[SCHEDULE A SURVEY](#)

With the latest NeuroStar indication update to treat anxious depression, did you know you can schedule automated PHQ-9 and GAD-7 surveys through TrakStar? Reduce staff time and increase patient survey responses by scheduling automated patient health surveys during NeuroStar treatment that will conveniently save in TrakStar.

### NeuroStar University

The first of its kind for mental health; NeuroStar University (NSU) is a state-of-the-art training center in Charlotte, North Carolina. NSU will teach you to achieve the best clinical outcomes and market your NeuroStar business, so that more patients can become aware of NeuroStar TMS. To learn how to reserve your seat at an upcoming course, reach out to your Practice Development Manager or Strategic Account Manager today.

### NeuroStar in the News

Neuronetics recognized as Top Non-Invasive Devices Provider in 2022

### MyNeuroStar Marketing Resources

#### New patient video available!

The NeuroStar Patient Journey video is now available on myneurostar.com. Add the video to your practice website, or share via myneurostar to your social channels!

[WATCH THE VIDEO](#)

#### Proactively identify NeuroStar patients within your practice with PHQ-10!

By using the PHQ-10, you are now able to gather all pertinent information to effectively assess your patients' medical condition. PLUS adding the 10th question will help you identify patients interested in NeuroStar TMS treatment.

NeuroStar Advanced Therapy is only available by prescription. A doctor can help decide if NeuroStar Advanced Therapy is right for you. Patients' results may vary.

The NeuroStar Advanced Therapy System is indicated for the treatment of depressive episodes and for decreasing anxiety symptoms for those who may exhibit comorbid anxiety symptoms in adult patients suffering from Major Depressive Disorder (MDD) and who failed to achieve satisfactory improvement from previous antidepressant medication treatment in the current episode.

The NeuroStar Advanced Therapy system is intended to be used as an adjunct for the treatment of adult patients suffering from Obsessive-Compulsive Disorder (OCD).
